

Why should you join the North Carolina Medical Society?

To be a part of your community of peers

The NCMS is a community of physicians and PAs — at all stages of their careers and from all specialties throughout the state — who come together with one collective voice and shared vision to ensure the health and well-being of their profession and their patients.

To take advantage of member benefits

From offering products and services such as our NCMS Employee Benefit Plan to opportunities to learn and to mingle with your colleagues at events such as our annual LEAD Conference and the Golden Stethoscope Awards Gala, membership with the NCMS has its privileges!

The NCMS advocates for you and your patients

The NCMS acts as a tireless advocate for your profession on regulatory, legislative and judicial issues that impact you and your patients.

To demonstrate Leadership in Medicine

The NCMS offers its members opportunities to develop leadership skills through its innovative Kanof Institute for Physician Leadership (KIPL) programs such as Leadership College, Health Care Leadership and Management and the Future Clinician Leaders College.

Find your “why” and be a part of the North Carolina Medical Society today!
