Speaker

Savannah Junkins, PA-C, MPAS
Director of Integrated Behavioral Health
Freedom Hill Community Health Center

About the Workshop:

Savannah Junkins, PA-C, has been working with patients with substance use disorder (SUD) for 5 years and will share her knowledge about substance use disorder assessment, diagnosis, treatment, harm reduction, and patient/family education. She will also explain how to integrate medical and behavioral health care into the workflow to provide a comprehensive approach to the patient's needs.

This session will provide 1.5 hours of Controlled Substance Prescribing Continuing Education and 1.5 hours of DEA-MATE content required for DEA-registered health care practitioners.

Objectives:

- Explain the assessment and diagnosis process of individuals who screen positive for substance use disorder (SUD)
- Discuss the prescribing practices for medication-assisted treatment (MAT) of SUD
- Describe the components of developing an effective SUD treatment plan, incorporating the use of an interdisciplinary team, and how to implement this into the workflow of the primary care practice
- Discuss safety and overdose prevention education for the patient and family including recognizing signs of abuse or misuse

Target Audience:

This program will benefit physicians, physician assistants, nurse practitioners, registered nurses, dentists, pharmacists, veterinarians, and all other healthcare professionals interested in this topic.
